

Acquia Certified Cloud Pro

Self-Assessment

Welcome to the Acquia Cloud Pro Certification Self-Assessment!

The purpose of the Acquia Cloud Pro exam is to validate skills and knowledge of a developer in the area of hosting and maintaining a Drupal website on Acquia Cloud.

We suggest you perform the following skills and expertise self-analysis with respect to the domains and topics listed for the exam. This assessment will help you evaluate where you are within your learning of the exam domains and your readiness for the examination.

Examination Domains

Domain	% of Exam
1.0 Fundamental web hosting concepts	15%
2.0 Acquia Cloud features and interface	35%
3.0 Drupal development workflow on Acquia Cloud	35%
4.0 Acquia Cloud best practices	15%
TOTAL	100%

How to use the Self-Assessment

Rank your own skills on a scale of 0 to 10 against each test objective below. Use 0 for absolutely zero knowledge or exposure and 10 for complete mastery of the topic.

- Topics with a score of 8+ are your strengths.
- Topics with a score of 5 to 7 will need some preparation.
- Topics with a score below 5 may require a lot of preparation, or guided instruction.

Leverage the resources in the [Acquia Cloud Pro Study Guide](#) to learn more about how you can prepare, and what resources are available to study further on specific exam topics.

Acquia Cloud Pro Self-Assessment
